

## **Illuminated Rose Heart**

**This workshop is based on the energies and messages that Eunjung and Yves have received through their magical, heartfelt journey through Southern France and Greece.**

Through **various channelings, language of light, new light wave transmissions and sound healing modalities**, we will merge together with the divine masculine, divine feminine and divine child and navigate into a liquid and multi-dimensional reality. Therefore we will learn how to discover and live our unique divine destiny. We go in depth into the Illuminated Rose Heart and will receive and integrate Isis star wisdom and anchor the Eternal Spring of Life and Tree of Light within ourselves.

**As a group, we will connect to the Universal Flower of Life**, weave sacred geometry in our etheric, spiritual bodies, and sing the songs of the heart and creations. We will explore creation principles such as burning away all matrices and unwanted energies, going into the void with the help of Black Madonna, creating from the clear vision of the heart and dancing between creative inspiration / intuition (Water) and manifestation /action (Fire). In this workshop, **teachings and messages will be mostly from Isis, Jeshua & Mary Magdalene and other masters of light and the star council.**

**We will take a powerful multi-dimensional journey** restructuring our light bodies into a much higher state of light vibrations through initiations and activations of the Illuminated Rose Heart, Eternal Spring of Life and the Tree of Light which will assist us greatly in shaping our divine destiny. Participants will learn and experience:

- Sharing of new symbolisms: Rose, Holy Grail, Tree of Life, Tree of Light, Eternal Spring of Life, Fluid consciousness
