

## Magical creations with the elemental kingdom

**We all are connected with each other and the whole universe;** we are part of this (natural) “world wide web”. It is our birthright, to be in deep connection with the earth and the elementals and therefore to receive healing and transformative support. At the same time we all carry the responsibility, to honor and protect the earth. When we feel disconnected from nature, we experience feelings of confusion, illusion and disempowerment.

**When we reconnect with nature, we remember a state of oneness and wholeness.** We feel new life force, receive new inspiration and experience transformation; no matter how long we were disconnected earlier. When we leave from the city and reconnect with nature, we get strongly supported, to integrate the dimensional and energetic shifts, which are occurring right now.

**In this workshop you learn, how you can co-create with the magical realm of the elemental kingdom,** which is an important part of nature. You learn how you can use effortlessly the power of your imagination through the connection with the spiritual realms of angels, fairies, unicorns and dragons and therefore activate spiritual magic in your daily life. **You experience, how you open to the fullest potential of your life and therefore create a new version of your own reality.**
